JAMIE MEANEY, IRELAND

All the information in this case study was generously provided by Jamie Meany. Jamie works in law enforcement and currently studying a MSc in Computer Forensics. He investigates theft and handling, computer crime, drug cases.

The **business challenges** that led Jamie to evaluate and use Belkasoft Evidence Center:

- Delivering results in time
- Analyzing wide spectrum of applications
- Looking for cost-effective solution
- Combining various data sources in one case (mobile, computer, cloud)

> " *So far I am getting more impressed. I hope to continue to use Belkasoft after my studies.* "

Jamie finds the following BEC viewers the most useful in solving cases:

- Dashboard
- Case explorer
- Social connection graph
- SQLite viewer
- Google Maps
- Timeline
- Hex viewer

Jamie has experienced the following **benefits** when using Belkasoft products:

- Simple user interface
- Comprehensive Live RAM analysis
- Analysis of processes and malware
- Mobile, hard drives and cloud acquisition
- Advanced low-level analysis

General impression

"I am primarily using the benefits of your trial service for study and coursework as I am currently undertaking a Postgraduate Masters of Science in Forensic Computing and Cybercrime Investigation in University College Dublin. As I am only learning the environment of your software I am discovering new aspects since I submitted the survey. I had only looked at the software briefly and so far I am getting more impressed. I hope to continue to use Belkasoft after my studies."
