

## JACEK ANIOŁEK, POLAND

### About the organization

All the information in this case study was generously provided by private forensic expert from Poland. In his line of work Jacek Aniołek investigates child exploitation, homicide, fraud and forgery, computer crime, missing persons, theft and handling, harassment and abuse, criminal damage and industrial espionage.

The business challenges that led Jacek to evaluate and use Belkasoft Evidence Center:

- Delivering results in time
- Finding all relevant data
- Various data sources in one case (mobile, computer, cloud)
- Looking for easy-to-use tool which doesn't require time-consuming trainings

“

*Product met my expectations*

”

### About the case

Jacek Aniołek finds the following BEC viewers the most useful in solving cases:

- Case explorer
- Task manager
- Social connection graph
- Timeline
- SQLite viewer
- File System Explorer

The benefits Jacek has experienced using Belkasoft products:

- Simple User Interface
- Comprehensive Ram analysis
- Analysis of processes and malware
- Fast data extraction

### General impression

“Starting work on BEC was preceded by a test on the trial version. Product met my expectations. Possibility to purchase a basic version and then buying modules is a shot in a dozen. The possibility of purchasing a dongle allows for the optimal use of your equipment.”
